Sri Ramakrishna Mission Vidyalaya Boys Hr Sec School, Chengalpattu

Class XII | 2023 | 56.2%

PTVS High School, Thirukkazhukundram

Class X | 2021 | 50%

📁 Projects

Power BI

The Power BI course was successfully completed, and participants learnt how to connect to data sources, clean and transform data, and create interactive dashboards and reports. They learnt how to analyse and model data with Power Query and DAX. Participants can now publish and share reports securely using Power BI Service. This course is ideal for business and data analysts who want to make data-driven decisions.

🔗

Data Analytics with Excel Project

This Data Analytics with Excel course has been successfully completed, empowering participants with the skills to analyze, visualize, and interpret data using Microsoft Excel. Participants learned to utilize advanced Excel functions, data visualization techniques, pivot tables, and Power Query for data transformation. The course also covered the creation of dynamic dashboards and reports, along with the application of statistical analysis for decision-making.
